

Report on E-Summit, IIT Bombay

Organised by:

E-cell, IIT Bombay

In Association with:

CMRU E-Cell

Prepared by:

Aditya Srivastava, Btech Student

Objective of the Event:

The objective of the E-summit organized by E-cell at IITB was to provide a platform for aspiring entrepreneurs like Huda Javeed and Aditya Srivastava from CMRU to enhance their entrepreneurial skills, knowledge, and networks. Through a diverse range of seminars, workshops, and networking opportunities, the event aimed to foster innovation, facilitate collaboration, and inspire the next generation of leaders in the startup ecosystem. Additionally, the Incubator Summit provided a platform for selected teams to pitch their ideas, fostering a culture of entrepreneurship and empowering participants to turn their innovative ideas into impactful ventures.

Benefits in terms of learning/Skill/Knowledge obtained:

The E-summit, organized by E-cell at IITB, was a transformative two-day event attended by Huda Javeed and Aditya Srivastava from CMRU. Throughout the summit, we had the privilege of delving into a plethora of seminars, workshops, and networking opportunities. Engaging with startups and incubators provided invaluable insights into the entrepreneurial landscape. Interacting with industry experts and like-minded individuals expanded our understanding of various domains and emerging trends.

Participating in the Incubator Summit, as one of the top 20 teams selected nationwide, offered a platform to pitch our innovative ideas and receive constructive feedback. This experience not only honed our presentation skills but also deepened our understanding of market dynamics and investor expectations.

Overall, the summit served as a catalyst for personal and professional growth, equipping us with the knowledge, skills, and confidence to navigate the ever-evolving entrepreneurial ecosystem effectively.

Overview:

The E-summit hosted by E-cell at IITB spanned two days, with Huda Javeed and Aditya Srivastava from CMRU in attendance. We seized numerous learning opportunities through seminars and networking sessions. Engaging with startups and incubators proved insightful. At the Incubator Summit, we presented our idea, having been among the top 20 teams selected nationwide. This experience was invaluable, fostering both personal and professional growth.
